How SSH to MARS System for Unix Class (ACS-2941-001)

Prepared by: Nischal Ghorasaini   Date: 2023/09/07

Prerequisite:
Access to Mars Unix System has only be allowed from Eduroam (campus network) and via VPN. Please connect your desktop to either **Eduroam** or UOW's Cisco Anyconnect VPN, and then try to access SSH as per below steps.

STEP-1:

 Download SSH Terminal Software for your OS, like SSH Secure Shell, PuTTy, MobaXTerm, etc. that is compatible for your Laptop's OS.
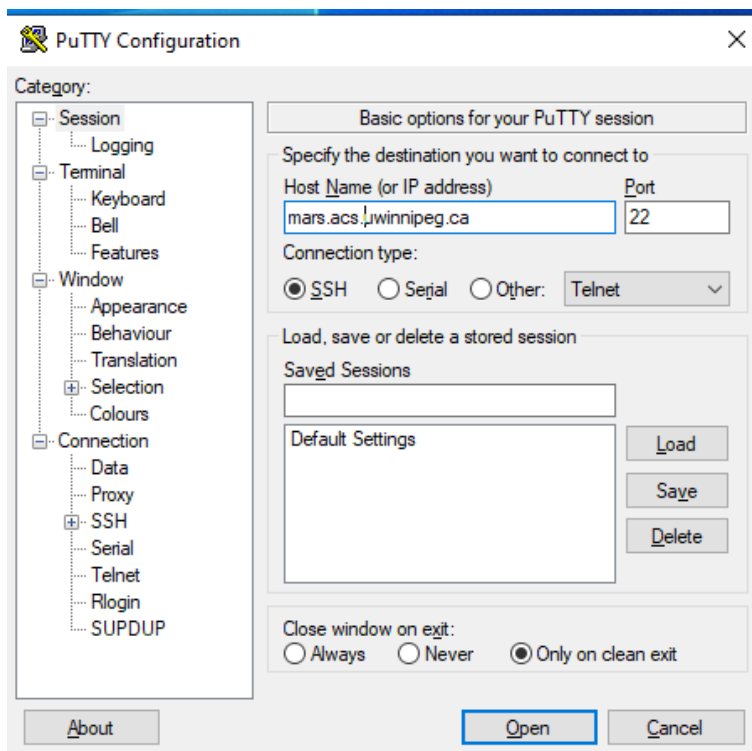

STEP-2:

Open the installed software, and enter following credentials and click Connect/Open:
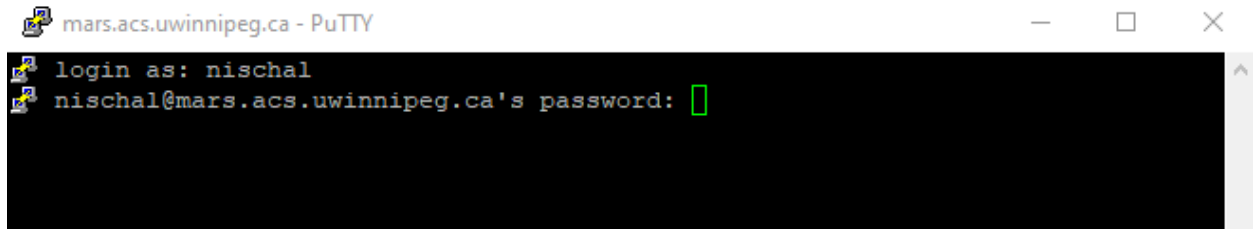

Hostname: mars.acs.uwinnipeg.ca
Port: 22 (default)
Connection Type: SSH (default)

STEP-3:

Enter your Username and Password, as it is provided by instructor.

```
mars.acs.uwinnipeg.ca - PuTTY                        —  □  ✕
login as: nischal
nischal@mars.acs.uwinnipeg.ca's password: ▯
```

Guide on VPN as below:

How to install VPN client and connect to UW VPN
