

## How to submit assignments by using the Mail Program

Please put your name, student ID, and all of your answers in one text file first (by using a text editor such as **vi**). Then, you can email your assignment to `sliao@mars.uwinnipeg.ca` from your email account on `mars.uwinnipeg.ca` in one of the following methods:

1. **Mail sliao your\_userid < assignment\_file**

2. Using the **Mail** program to compose an email:

```
% Mail sliao your_userid
```

You will see a subject line

**Subject:**

You can type your subject, e.g., **Assignment 1**, and press the Enter key.

In the new blank line, you can read in your assignment text file by typing

```
~r assignment_file
```

and read your assignment file into the **Mail** program's buffer.

To view the contents of your email, you can type

```
~p
```

Then, you can enter a dot (.) to send the email out.
